Perfect pints at perfect prices

The Glamorgan Beer & Wine Cellars

Once again the price of a pint has risen sharply and the Chancellor will undoubtedly levy an above inflation increase at the next budget, leaving you the landlord to pass on the 10p–15p per pint charge to your customers.

The gulf between supermarkets and your outlet are getting wider every year, so The Glamorgan Beer Company have sourced brands from National Brewers with a view too:

- 1 Offer your customers a value for money pint without compromising on quality or taste
- 2 Increase sales and attract new customers
- 3 Improve on margin
- 4 Maximise profit.

All brands listed are aimed to retail between £1.90–£2.30 per pint giving excellent gross profit as demonstrated below, the selling price shown also includes the recent VAT increase.

Why not offer your customers the option?

- a quality pint at a price that will keep them coming back for more
- or yet another 15p increase on their favourite drink.
